

## **PROPOSED GUIDELINES FOR USE OF ALA MOANA OCEAN WATERS STAND-UP PADDLING CORRIDOR**

- The Stand-Up Paddling corridor is demarked by a series of buoys and the interior (mauka) edge of the reef. This area is designated for use by stand up paddlers.
- The swimming/wading zone is the area between the series of buoys and the shoreline. This area is designated for use by swimmers and waders.
- Swimmers and waders should always have the right of way in all areas.
- Novice paddlers should wear a leash attached to their boards while in the waterway.
- Minors and individuals unsure of their swimming abilities operating paddleboards in the paddling corridor should wear a US Coast Guard approved personal floatation device (PFD) as a precaution.
- Paddlers may ingress and egress the waters of the waterway at any point but should take the safest, most direct route to the paddling corridor.
- Swimmers may access the reef by traversing the paddling corridor at any point but should take the safest, most direct route to the reef.

**The Department of Land and Natural Resources asks that all users of this waterway respect the rights of others to enjoy this resource.**

**The department also hopes that swimmers, waders and paddlers will act responsibly, render aid to those who need assistance and mentor others who are not acquainted with the uses of the swim/wading zone or the paddling corridor.**
